Prostate Cancer Facts You Should Know

- **Prostate cancer is the most common non-skin cancer in America, affecting 1 in 6 men.**
- **The older you are, the more likely you are to be diagnosed with prostate cancer. Although only 1 in 10,000 men under age 40 will be diagnosed, the rate shoots up to 1 in 38 for ages 40 to 59, and 1 in 15 for ages 60 to 69.**
- **African American men are 60% more likely to develop prostate cancer compared with Caucasian men and are nearly 2.5 times as likely to die from the disease.**

- **Refreshments and Lunch will be served.**
- **Seating is limited so please contact the Church Office at to reserve your place.**
